

Dubai World Trade Centre Calendar Wall

Digital Communication LLC (DigiComm) installs perhaps Dubai's largest public display at Dubai World Trade Centre (DWTC).

DigiComm started with DWTC in 2014 by deploying a large multi-display wall for exhibition calendar and exhibit details. In this project, the nine-meter impressive display promotes upcoming events at DWTC. The two interactive terminals at each side provide relative information to visitors and guests.

Over the years, DigiComm has then installed and maintained all their indoor video walls and outdoor LED screens including the first curved outdoor LED in Dubai at the new Za'abeel Halls. DWTC now has an in-house content production and management team.
